SUMMARY

"As a front-end developer, I specialize in crafting engaging and user-centric web experiences using HTML, CSS, JavaScript, and cutting-edge frameworks."

EXPERIENCE

Front End Developer
Discoverweb   **May 2023 -September 2023, Remote**

· Collaborated with senior developers and designers to create responsive and visually appealing web applications.
· Implemented UI designs using HTML, CSS, and JavaScript, enhancing website functionality and aesthetics.
· Conducted cross-browser compatibility testing and resolved compatibility issues for a consistent user experience.
· Assisted in integrating third-party APIs and optimizing website performance for improved load times.
· Contributed to code reviews, documentation, and knowledge sharing within the development team.

Web Developer
Infynow solutions   **August 2021 - November 2021, Belgaum**

· Developed and maintained code for a multi-platform web application, increasing speed and uptime by 15% and improving user experience by 17%.
· Constructed components and pages in React with unit testing using React-testing-library, which were deployed to production.
· Utilized information collected from the product team to rapidly build various prototypes.

EDUCATION

Bachelor of Engineering in Information Science and Engineering

Gogte Institute of Technology · Belgaum, Karnataka · 2023 · 8.95
· "Attained a perfect 10.0 CGPA during the final semester of my college education, showcasing exceptional academic achievement and dedication."

CERTIFICATIONS

Mern Stack Developer

Masai · 2023
· "This MERN Stack developer bootcamp at Masai equips me with the essential skills and knowledge to excel in the rapidly evolving world of web development, making me a valuable asset in the professional realm."

PROJECTS

Haan Sanitizers

Masai · https://haan-handsanitizer.netlify.app · September 2023 -September 2023
· Developed a fully responsive and functional E-commerce website called 'Haan Sanitizer' using HTML, CSS, and JavaScript, with integrated local storage and a JSON server.
· Utilized HTML, CSS, and JavaScript to create an intuitive and user-friendly E-commerce platform for 'Haan Sanitizer.'
· To enhance user experience, local storage was implemented for saving cart items, and a JSON server handled product data retrieval and storage.

Myntra Website Clone

Masai · https://masai-myntra-fashion-clone.netlify.app/ · August 2023 -September 2023
· Developed a Myntra-inspired e-commerce website clone using HTML and CSS, replicating the user interface and design aesthetics of the original platform.
· Implemented client-side data storage and retrieval using localStorage, enabling users to save and manage their shopping cart and preferences seamlessly without requiring server-side storage.
· Demonstrated proficiency in front-end web development by creating responsive web pages that adapt to various screen sizes and resolutions, enhancing the user experience on different devices.

Shagufta Skincare Website

http://demo.infynow.com/ · June 2022 - July 2023
· Developed a feature-rich skincare website using HTML5, CSS3,
· Bootstrap, JavaScript, and PHP.
· Implemented user-friendly navigation, interactive product showcases,
· and seamless e-commerce functionality.
· Utilized secure payment gateways and integrated user authentication
· for enhanced data protection.

SKILLS

Techical Skills: NodeJS, ReactJS, Javascript, Bootstrap, HTML, CSS, GIT

Industry Knowledge: Development Operations, Testing, Debugging, Usability Research

Soft Skills : Communication Skills, Creativity, Problem Solving, Team Player
